

Oferta stażowa w firmie Sensirion w Szwajcarii

SENSIRION

Intern Production and Process Integration • 100%

Full-time • Temporary

Area of activity	Position	Location
Operations & production	Interns	Stäfa, Switzerland

What you move

- +++ Play a key role in achieving KPI targets and sustaining production flow
- +++ Perform hands-on inspections and compile detailed analysis outcomes
- +++ Initiate in-depth root cause investigations

What awaits you

- +++ Independent task execution and engaging learning experience in a production environment
- +++ Diverse tasks, not just PC work. Analyze problems at source and later prepare a summary
- +++ A highly motivated and helpful team with a pleasant working atmosphere
- +++ Coordinate a project for production improvements/changes, in cooperation with other departments

What you bring along

- +++ Ongoing BSc or MSc studies in Engineering, Manufacturing, Physics or a related field
- +++ Communication skills and team spirit (German and English)
- +++ Very good suitability for analytical problem solving in production
- +++ Interest in manufacturing processes, with a focus on Statistical Process Control (SPC)

Your Contact

We look forward to hearing from you.
